

AS332 C1e

## The versatile heavy-lift solution

The AS332® C1e is a medium-weight, twin-engine helicopter with outstanding performance that belongs to the well-known Super-Puma®/Cougar® family. This powerful and fast Super Puma with long-range capabilities has a very large spectrum of mission for serving air crane, transport, parapublic, commercial operators, and emergency humanitarian aid. Its useful volume for load or equipment and an outstanding capability for heavy lift operations make it a versatile Helicopter.

The AS332 C1e is also able to operate in harsh conditions such as snow, sand or high and hot environments. Thanks to its state-of-the-art avionics and EASA/FAA certifications, it ensures a high level of safety for pilots and passengers.

Beyond these characteristics, this Super Puma has an excellent availability rate with optimized maintenance and operating costs.

## Super-Puma/Cougar Family

890 delivered aircraft in 56 countries have accumulated close on 5 millions flight hours.

### AS332 C1e / Super-Puma benefits for operators

- Remarkable volume & payload
- High and hot capabilities
- Versatility
- Up-to-date safety standards
- Simple to pilot, operate and maintain
- Cost-effective

Unmatched helicopter autopilot and capabilities

## Reaches otherwise inaccessible places quickly and safely

### WEIGHT

Maximum Takeoff Weight (MTOW)	8,600 kg	18,960 lb
MTOW in external load configuration	9,350 kg	20,613 lb
Useful load	4,115 kg	9,072 lb

### CAPABILITIES

2 Pilots + 15 seats (commercial passengers) / 20 seats (troop)		
Sling load	4,500 kg	9,920 lb

### ENGINE

2 TURBOMECA MAKILA 1A1 Turboshaft		
Takeoff Power (TOP) per engine	1,819 shp	1,357 kW

### PERFORMANCE AT MTOW, ISA, SL

Maximum speed (Vne)	150 kts	278 km/h
Fast cruise speed	141 kts	262 km/h
Rate of climb	1,618 ft/min	8,2 m/s
Max. range with Std. tanks, at RCS 136 kts / 252 km/h	642 km	346 NM
Endurance with Std. tanks at 70 kts / 130 km/h	3 h 19 min
